

ESG Pass Protection

Nothing in life is guaranteed. That's why we offer PassProtection™ with our ESG Certification Course Package. We're so confident that with your dedication and our exam preparation, you'll have no problem passing the ESG exam. But, should you need a second chance, we'll pay for your entire exam prep package for your next exam sitting.

To be eligible for a free package, you must meet the following criteria:

- Purchased the ESG Certification online study package within the last 24 months
- Answered at least 50% of your available online questions (i.e., QBank and Mock Exams). To receive credit, your answers must have been entered into the online platform

If you do **not** meet the above criteria, you can still receive the same package for £80. To be eligible for this offer, you must have previously purchased the ESG Certification online study package within the last 24 months.

For pass protection to be applied, we must receive email confirmation of your retake registration from CFA Institute. Your order will not be processed until this documentation is received and verified.
