CIMA Syllabus Structure

2015 Syllabus Structure

At each Professional level there are three Objective Tests (e.g. E1, P1, F1) followed by an Integrated Case Study.

You must progress by level in the order shown in the diagram to the left. To progress to the next level you must have passed all 3 Objective Tests and the Integrated Case Study from the lower level. The 3 Objective Tests within each level can be taken in any order, but must be passed before attempting the Integrated Case Study for that level.

Objective Tests (OTs) - The 9 technical exams (E1, E2, E3, P1, P2, P3, F1, F2, F3) each consist of 90 minute 'Objective Tests' taken on a computer. These are available all year around. These exams are computer marked so results will be available shortly after the exam.

Objective Tests use a combination of multiple choice, data entry, fill in the gaps and drag/drop style questions. Questions will be selected randomly and will cover all of the learning outcomes within the syllabus.

Integrated Case Study (ICS) - there is a case study at each level - Operational, Management and Strategic. These 3 hour computer exams will cover the syllabus from all 3 subjects within the level you are sitting. There are four fixed exam sittings a year - February, May, September and November. These exams are human marked and results will be available 4-5 weeks after the exam are held.

The exams will be broken down into timed sections with tasks being set based on 'trigger' information delivered at various points during the exam. The previously unseen trigger information will build on the pre-seen material that you will receive a few weeks prior to the exam. The questions will be discursive, and involve minimal calculations, short answers and essays. Some tasks will also be linked.

CIMA Professional Level

The next page of this timetable details the courses that our Live Online (virtual classroom) centre is offering for the CIMA Professional Level in 2019.

These subjects can be studied in any order, so you can start your CIMA studies throughout the year. We recommend that you study this qualification over 6-12 months. Objective test subjects can be taken in any order however you must have passed all three objective test subjects before you can sit your case study exam.

The information below gives you a key to understand the grids on the next page.
